AUTO HIT A TACK

"SUNNY JIM'S" ACCIDENT CAUSE OF PREDICAMENT IN SENATE.

HOUSE STILL PROBING

Despite Refusal of State Department to Produce Records, Smelling Committee is Busy.

By VAN CLEVE.

Washington, D. C., June 6.—Another week has opened up and a session of the senate was lost yesterday because "Sunny Jim" Sherman ran over a tack Sunday. The genial vice president was up in New York when his auto party encountered the tack, and a punctured tire laid them out and prevented his return here in time for yesterday's session. For the first time in thirty-five years the senate was without a presiding officer. It was called together by the secretary of that body, and a vote was taken on the election of a president pro tem. with the same old result, and then the senate, over the protest of the Democratic members, adjourned, all because of the little tack.

* * *

The very deliberate gentlemen in the north end of the capitol, however are slowly moving now and big doings are in prospect. The Lorimer matter has been referred to the usual committee, with a gentlemen's agreement that it will be given over to a sub-committee composed of four members who supported Lorimer in the former investigation and four, part of whom were against him and part of whom were not then in the senate. This is an interesting diversion in the matter of trials.

The senate will vote on the bill to elect senators by direct vote of the people June 12, and the hearings on the reciprocity bill will close today and be reported out of the committee without recommendation as the committee is divided about equally for and against it. A vote will hardly be reached before some time in July, as a long and bitter discussion of the subject is in prospect.

The president is getting impatient and will exert all the power he can to secure its passage. He is trying to stop the movement to amend it to death, and will have to rely upon Democratic members for his most active support. His speech in Chicago Saturday night was a reproduction of some of the arguments made on the floor of the house when it was up for consideration in the early part of the session. The president is steering his bark into unknown waters. He is too progressive for the standpatters and too conservative for the insurgents. He is politically in the position of a disowned babe left upon the Democratic doorstep. He must look to them for sustenance and whatever comfort he may get out of this special session, but they are not going to adopt him, not just yet.

* * *

The president allowed himself to get into an uncomfortable hole over the little matter of the state department picture that Mr. Hamlin has been pressing. When the records of the state department were demanded covering this transaction, Secretary Knox put the case up to the president, and the president forbade the secretary from giving out any information. So we are still unable to tell who got the $1,600. The matter came up this way. They have an "emergency fund" in the state department that is devoted to diplomatic work and missions of a secret nature which the state department holds is necessary to keep from the public. Congress allows them $75,000 per year to spend in this way. It has been discovered, however, that this particular check for $2,450 was drawn from this emergency fund. This was very wise because the department doesn't have to account to anybody or anything for payments made out of this department except the president and secretary of state, but what the committee wants to know now is when did the painting of pictures get to be a diplomatic mission or an emergency expense.

But it doesn't matter. Mr. Hamlin says he can keep busy any way. He has just sprung another interesting question this morning and that is in the payment of a claim of $386,000 to Mrs. Frederick Townsend Ward, in which John W. Foster of Ohio, former secretary of state, received a fee of $184,000. It was paid out of the Chinese boxer fund, and he will undertake to find out what it had to do with the boxer fund. The committee on expenditures in the interior department also reports that it detects a bad odor coming from some buried transactions relating to Indian lands, etc. It's bad to have to deal with these things at this season of the year, but the members say their systems are in good shape, and the work of disinterring ancient bodies will not be too much for them.

* * *

The house is getting ready to send another one over the plate. After an all-day caucus Thursday, Mr. Underwood introduced his bill Friday to revise the wool schedule. It was reported out of the ways and means committee today with a 269 page report, and now the fun will begin again in the house. But it will be short lived. The result is discounted, and it is merely a matter of going on record. The Democrats threshed out their differences in the caucus and wound up with a solid vote in favor of the bill in deference to an overwhelming majority.

In taking this action the Democratic membership had to meet the unpleasant issue of accepting the advice of Mr. Bryan or of acting upon their own best judgment. They chose to do the latter. The Republicans have been adding story after story to all these tariff duties until they are sky scrapers, and the question must be decided as to whether it is best to come down in the elevator or to step in the shaft and come down without its aid. The Republicans have eased them up by the elevator route.

Most of the Democratic members would like to see articles of food, shelter and clothing admitted free of duty, and most of them agree with Mr. Bryan that there are other ways of raising revenue. But this congress has been sent here direct from the people, charged with a great responsibility. They are here to deal with a condition as they find it, and not to act upon an abstract principle.

The extravagances of recent administrations have left the public treasury in a depleted condition and revenues must be provided. The wheels of government must be kept going. The imports of wool last year amounted to $256,606,638, on which a tariff was paid of $21,128,728. The duties on raw wool average about 44 per cent. The duties on manufactured articles run as high as 95 per cent and are practically prohibitive, but from this source a revenue was received about equal to that from the raw article. In the Underwood bill all of these rates have been cut in about half. It will not materially reduce the revenues from manufactured articles from wool because it will permit of larger importations, but to admit raw wool free at one fell swoop would be to abandon a source of revenue entirely amounting to over twenty millions. In the present condition of the treasury and until some provision is made to take the place of it or savings have been made sufficient to overcome it, the Democrats believe it wise to make haste slowly.

Then, too, there would be no possible chance to get a free wool bill through the senate and past the president, but there is a chance to get this bill into law. Everybody admits that these duties are too high and that they should be lowered. If the Democrats pass a bill in the house that they know will never go through the senate, they will be open to the charge from their critics of grandstanding. The house is anxious to avoid that. It is earnestly endeavoring to get remedial measures enacted into law.

By the action it has taken it has said to the business interests "be not afraid, we are here to help everybody and to harm no honest industry," and at the same time it has, by its resolution, assured Mr. Bryan and the country that it forsakes no Democratic principles in attempting to reach by easy stages what it cannot well reach at a single bound. It was pretty generally understood here that Mr. Bryan had accepted an endorsed the views of the house under present conditions, and the caustic article in the

DR. DEAN SAW AUTOIST KILLED

Dr. Leslie E. Dean returned Thursday night from a month's absence in Chicago and at Rochester, Minn.

Thursday morning, while traveling between Rochester and Sioux City, his train struck an automobile party about twenty miles north of Sioux City. One man was killed and two were probably fatally injured. He could not learn the names of the parties in the touring car.

Dr. Dean has been taking advantage of splendid opportunities in his profession since he left a month ago. After nearly three weeks in lectures and hospital practice in Chicago, he went to Rochester, Minn., where he spent ten days in the famous Mayo hospital. He witnessed an average of twenty-five or thirty operations every morning he was there, which were performed by the Mayo brothers and their two young assistants.

SOME THOUGHT HIM BETTER THAN EDDY

The pipe organ recital at the First M. E. church Friday night by Mr. J. T. Quarles of St. Louis, who is organist of the Lindell Avenue M. E. church of that city, was highly satisfactory to all who attended. The night was so hot that many who wished to attend could not do so.

It is the opinion of many at the concert Friday night who are capable of judging, that Mr. Quarles is a greater pipe organist than Clarence I. Eddy, the world renowned organist who appeared here last winter. He gave several numbers Mr. Eddy played with much better effect, and his manner and execution of all his numbers were delightful. Once more Maryville has Director Landon of the Conservatory of Music to thank for bringing another great musician to instruct, entertain and delight in the fine art of music.

The part of the program given by the First M. E. church choir, Miss Marie Jones and H. H. McMaster was a very creditable support to Mr. Quarles.

A NEW NEWSPAPER ESTABLISHED AT GRAHAM

A newspaper has been established at Graham. The first issue was printed this week and is known as the Graham Record. Dan R. Baker, who is also editor and proprietor of the Skidmore New Era, is the editor and publisher of the new paper. Graham has been without a paper for several months. Mr. Baker is a good newspaper man, and if his new paper is like the Skidmore paper the people of that vicinity can be sure that they are receiving a paper well worth the subscription price.

REV. CRESAP TO BE HERE SUNDAY

The quarterly conference of the M. E. church, South, of this city is to be held Saturday evening in the church building. On Sunday, both morning and evening, Presiding Elder Cresap of St. Joseph will occupy the pulpit at the M. E. church, South. In the evening his subject will be "The Awakening of the Far East."

COUNTY JUDGES WENT TO ST. JOSEPH

The county court adjourned Friday afternoon and the judges, John Thornhill, J. O. Thompson and W. H. Blackford, left on the afternoon Burlington train for St. Joseph, where they will make an inspection of the county patients at the state hospital No. 2 in that city.

Mrs. Stella Epperson went to Savannah Friday morning to spend the day with her aged grandmother, Mrs. S. J. Howard, who is 91 years old.

Ninety-Seven Today.

The thermometer today at 2:30 o'clock showed 97.

Mrs. F. W. Samuels of St. Joseph was in Maryville Thursday.

News of Society and Womens' Clubs

Mrs. Stauble Entertained.

Mrs. Anna Stauble was hostess to the I X L Embroidery club Thursday afternoon at the home of Mrs. Robinson Craven, by whom she was assisted in serving luncheon after the usual time in needlework. It was decided to hold a picnic soon. Owing to the extreme heat of the day quite a number of the members were absent. Those present were Mrs. W. R. Wells, Mrs. I. W. Nixon, Mrs. James Eckles, Mrs. Cooper Gooden, Mrs. Ernest Welborn, Mrs. David Mitchell, Mrs. Frank Walts, Mrs. Stella Epperson, Mrs. Walter Mutz, Mrs. Clinton Davis, Mrs. Robinson Craven, Mrs. Joseph Johnston. There were two visitors, Mrs. Eugene Rathbun and Mrs. S. O. Hutchison.

Relief Corps to Entertain.

The Women's Relief Corps will entertain Saturday afternoon at 2:30 o'clock at the home of Mrs. Samuel Townsend for Mrs. M. M. Deming and Mrs. Hugh McIntosh, who will leave soon for their new home in Omaha.

Entertained Thimble Club.

Mr. and Mrs. Ernest Wilhoyte, living west of Maryville, entertained the members of the Thimble club Thursday afternoon from 2 to 6 o'clock, in compliment to Mr. Wilhoyt's mother, Mrs. M. J. Wilhoyte, which was a surprise to her. The afternoon was spent socially and with needlework. A two-course luncheon was served just before the departure of the guests, who were Mesdames Thomas J. Hall, Frank Hall, J. J. Knabb, Delbert Vert, W. A. White, William Job, Add Shell, Chass Shell, Orville Wilhoyt, Arch Wilhoyte, S. T. Kennedy, John C. White, William Scott, M. J. Wilhoyte, James Whitehead, T. K. Wray, Misses Hattie Hall, Leska Wray, Wilma Hall, Clydeadell White, Lora Frances Wilhoyte and Roberta Wilhoyte.

Entertained for Mrs. Bohm.

Mrs. Luther E. Forsyth entertained at six-hand euchre Thursday afternoon complimentary to Mrs. Henry Bohm of Denver, Col., who is visiting her daughter, Mrs. Ferdinand M. Townsend, and Miss Myra Hart of Breckinridge, Mo., who is the guest of Mrs. Edwin G. Orear. The guest prizes were won by Mrs. Bohm and Miss Hart, while the game prize went to Miss Alice Martin and the lone-hand prize to Miss Lafe Allender. A one-course luncheon was served after the games. The guest list included Mrs. Bohm, Mrs. Ferdinand Townsend, Mrs. Edward L. Townsend, Mrs. Lavencour Michau, Miss Myra Hart, Mrs. E. G. Orear, Mrs. D. J. Thomas, Mrs. Frank Shoemaker, Mrs. J. F. New Club Met.

Miss Grace Sturm, a daughter of Mr. and Mrs. Nic Sturm, entertained the new girls' club at her home Thursday afternoon. Games were the amusements and a part of the time was spent in trying to think of a fitting name for the club. It would indeed be hard to find an all round suitable name for a bunch of such pretty, sensible and ambitious girls. (They're sensible or we wouldn't say it.) Wonder if some resourceful person couldn't help them out? The club will hold weekly meetings. The next meeting will be held with Miss Neva Airy. The members are Miss Grace Sturm, Miss Ruth Montgomery, Miss Helen Dunn, Miss Allie Fraser, Miss Anna Bainum, Miss Mae Growney, Miss Neva Airy, Miss Glen Hotchkiss.

DECAMP HITTING .467

But Has Only Played in Five Games—Averages Include First Eighteen Games.

"Germany Joe" Wintz, the Comets' veteran third sacker, is setting the pace with the stick for his teammates with an average of .373. Captain Danny Dietz is closely following with .353. The batting averages were given out by Secretary Hull Thursday evening and include the Shenandoah series.

Gus DeCamp, who cavorts around in the left garden, is hitting at a .467 clip, but has only played in five games. Griffin, the fleet-footed right fielder, who has been doing duty on the bench the last week, has failed to hit his batting stride and is hitting at the clip of .164.

The infield has been hitting nicely. With the demon swatter, Claud Cook, back in the game, the outfield will be strong with stickers. Pitchers Southward and Lark hit nicely, beside twirling good ball.

Guessing at Glasses

Is more dangerous than guessing at most anything else in the world. If relief from the errors of vision is to come through the wearing of glasses, it is all important that those glasses shall be adjusted according to the measurements of the most modern appliances. Choosing glasses by simply trying them on cannot be too strongly condemned. Absolute accuracy is essential, and absolute accuracy is what we offer you. Call any day you can, and we will give you our immediate and undivided attention.

Tom Spendmuch, our esteemed fellow townsman, and we sure do esteem Tom, has just purchased a new 60-horse, seven-passenger touring car. Ordinarily this would be Tom's own business and no one else would have any right to butt in, even with remarks, but we like him and it's simply a darn shame that he's so foolish. Tom is so hard up that he can't even pay his grocery and meat bills, and we happen to know that he mortgaged his home in order to raise the money to make the first payment on his machine. He needed, in his circumstances, a seven-passenger touring car just about as much as we, in our circumstances and with our seven children, need another set of twins.

If we hadn't kept track of it in any other way, we would have known when Ben Askformore trudged up the aisle with his wife and took a front pew in church yesterday that election day was near at hand. For the past twenty years Ben has attended church twenty times, once each year on the Sunday previous to town elections. Well, he isn't a bad sort of fellow at that, but we should think that he would sandwich in a few church services between times, just for the looks of the thing, if for no other reason.

JOHN BIGELOW IS ILL

Aged Author and Diplomat in No Immediate Danger.

Highland Falls, N. Y., June 9.—John Bigelow, the author and former minister to France, is seriously ill at his home, the Squirrels, from paralysis.

Dr. Howell of New York city, who is in attendance, said the aged patient might not recover, but was in no immediate danger.

Mr. Bigelow is in his ninety-fourth year. His last public appearance was at the dedication of the New York public library, where President Taft praised him as "one of the grandest old men of the age."

FOULKES PAYS HIGH PRICES FOR CARESSES

"Sentimental Tommy" Wins His Case Against Millers.

Chicago, June 9.—Thomas Foulkes of Danbury, Ia., the wealthy farmer who has been prosecuting his former fiancee, Miss Lodavine Miller, and her brother, Attorney J. Marion Miller, on charges of defrauding him out of $11,812 and two farms, won his case in the criminal court. A jury returned a verdict of guilty against the girl and her brother.

Foulkes told a remarkable tale of what he characterized as a "financial wooing." He said he bought kisses and caresses from the object of his affections with loans of from $50 to $600, and that after he had lost the amount of money named in his suit and after his two farms had followed the money his charmer had advised him to go to California, read the bible constantly and marry a widow. He added that it took him six years to discover that his affections were not returned.

The attorney, her brother, was accused of being the one who planned the alleged raid on Foulkes' heart and purse.

AUTO HIT A TACK

(Continued from page 1.)

Commoner, in which severe strictures were made on the house majority, was something of a surprise.

* * *

Dr. L. O. Howard, chief of the bureau of entomology, is about to annihilate an old and cherished idea with regard to the periodical visits of the locust and the terrible devastation he is liable to work when he does favor us with a call. Dr. Howard says locusts are not locusts anyway, but cicada, and that the real "locust" is the grasshopper. The cicada, which we have been pleased to look upon as the locust, and to regard with a certain degree of reverence because of Biblical references, he says is as harmless as the horse fly, so far as trees are concerned.

The real locust, he says, is the old Kansas grasshopper which wrought such devastation in Missouri and Kansas in 1876. In explaining why there are no grasshopper plagues in recent years, he says the grasshopper naturally lives where there is wiry grass and scanty vegetation, such as may be found in dry and undeveloped countries and in the mountains, and that the plow has driven him out in most of the western states, although he has taken refuge to some extent over the line in Canada. The cultivation of the soil has given a succulent and nutritious vegetation too rich for his taste.

He also makes the following very interesting suggestions:

"Down in Kansas during the plague in 1876, when every green thing was eaten up, an experiment was made with the grasshopper as an article of food. Actually, a soup was made from the grasshopper that was served one day in restaurants under some other name, and those who partook of it said it was very palatable. That was a case of 'biting the biter' with a vengeance. The experiment went far to convince many that the 'locusts' and wild honey that John the Baptist is reputed to have eaten was really the insect and not the tree, as is generally believed. The idea is further borne out when one remembers that the locust tree is a native of the new world, and was not found in the old world until a tree was taken to Europe in the eighteenth century. I saw the original locust tree taken to the Jardin des Plantes in Paris. It now has a placard on the trunk telling its history. Now the locust tree has spread by cultivation widely throughout the old world.

"But as far as the fear of locusts is concerned, a single field mouse or a rabbit that girdles young tree trunks, works vastly more harm to the vegetation of a district than a whole swarm of cicadae."

ABOUT HAIR.

Some Proof That Really Proves—Ask the Koch Pharmacy.

"Parisian Sage has done wonders for my hair, has cleaned out all dandruff, and my hair has begun to grow."—Mrs. Julia Watson, R. F. D. No. 1, Fredericksburg, Va., 1910.

Grows hair, or money back. Ask the Koch Pharmacy.

"Parisian Sage is fine. There is nothing like it for removing dandruff, and it leaves the scalp so clean. It also stops that itching of the head."—Ethel L. Schuyler, R. F. D. No. 1, Belmont, N. Y., 1910.

Stops falling hair, or money back.

"I consider Parisian Sage one of the best hair tonics and beautifiers, dandruff cures and cleaners that I have ever used."—Mrs. Katherine W. Johnson, Sheridan, Ind., 1910.

Stops itching scalp, or money back.

"I am pleased to say that Parisian Sage as a hair grower and beautifier, and as a dandruff cure and scalp cleaner is fine."—Mrs. N. T. Clift, 210 N. Penn Ave., Greenfield, Ind., 1910.

Parisian Sage is the most refined and refreshing hair dressing in the world. It is not stick or greasy, and the price is only 50 cents a large bottle, at the Koch Pharmacy and druggists everywhere. The girl with the Auburn hair is on every package.

PROBING COAL AND COKE DEAL

Grand Jury at Pittsburg is Quickly Recalled.

GET TIP FROM HOUSE PROBE

Investigation Is Outgrowth of Congressional Inquiry Into Steel Combine—Chief Engineer of Pittsburg Coal Company Is First Witness.

Pittsburg, June 9.—A federal investigation into the affairs of the Pittsburg Coal company and the Monongahela River Consolidated Coal and Coke company of this city to ascertain whether an attempt has been made to create a monopoly in the coking industry was begun here by a special session of the May grand jury, which has been hurriedly reassembled.

The probe is an outgrowth of the congressional inquiry into the United States Steel corporation and a gigantic coal deal, amounting to $18,000,000, which is nearing consummation betewen the steel corporation and the coal company, will, it is said, figure prominently.

E. J. Taylor, chief engineer of the Pittsburg Coal company, was the first witness called. A large number of prominent coal operators have been summoned.

Gary Denies Monopoly.

Washington, June 9.—Judge Elbert H. Gary undertook before the house steel trust investigating committee to show that the United States Steel corporation, of which he is the head, does not control as large a percentage of the steel business of the United States as it did on the date of its formation.

He insisted that as against a 60 per cent control of the domestic business in 1901 the corporation at the present time is able to direct only about 50 per cent of the domestic output. Of export business, however, Mr. Gary said the steel corporation controlled about 90 per cent.

While on the subject of export business, Mr. Gary referred again to the proposed formation of an international steel institute at Brussels.

"I hope," he said, "that through an interchange of ideas there can be brought about a condition of equilibrium in the world's steel trade.

"I do not want any one to get the idea that any one considers securing an agreement. If you will look into the minutes of our meetings you will see the matter outlined and I think you will see that there is now some disposition on the part of Germany to recognize our rights from a neighboring standpoint. The Germans and Belgians are the most aggressive and largest foreign manufacturers."

Mr. Gary insisted there was not "a scintilla of truth," in the idea that an international "trust" was contemplated. He said that in arranging for the meetings he had entertained no thought of "going beyond the rules of propriety or the law."

No Division of Territory.

Mr. Gary denied any knowledge of any agreement in the steel industry whereby business territory was apportioned and violators of the agreement punished.

"Our policy," he said, "has been publicity. We have endeavored from the beginning to publish all the facts and figures relating to our business."

Representative Young questioned Mr. Gary concerning the dismantling of plants taken over by the steel corporation. Mr. Gary said he remembered only one such case, that of the plant at Troy, N. Y., the operating of which had proved to be impracticable.

"We have never purchased any plant," Mr. Gary insisted, "with the intention of tearing it down or getting it out of the way for the purpose of cutting out competition."

Legislation to replace the Sherman anti-trust law to protect property interests and the people's welfare alike was urged by Mr. Gary, in concluding his testimony.

PUTS LIFE IN COLD STORAGE

Scientist Returns Fish to Activity After Freezing Them Three Months.

Geneva, June 9.—Some interesting experiments on the possibility of suspending life for a definite period have been carried out by Professor Raoul Pictet. In one case he froze live gold fish in water twenty degrees below zero, and three months later gradually melted the ice and brought the fish back to life.

Pictet says he carried out the experiments in order to see whether the phenomena of life could be made to disappear and be again restored, and the most convincing results were obtained with fresh water fish.

RESTORE GRAY HAIR TO NATURAL COLOR

By Common Garden Sage, a Simple Remedy for Dandruff, Falling, Faded, Gray Hair.

The old idea of using sage for darkening the hair is again coming in vogue. Our grandmothers used to have dark, glossy hair at the age of seventy-five, while our mothers have white hair before they are fifty. Our grandmothers used to make a "sage tea" and apply it to their hair. The tea made their hair soft and glossy, and gradually restored the natural color.

One objection to using such a preparation was the trouble of making it, especially as it had to be made every two or three days, on account of souring quickly. This objection has been overcome, and by asking almost any first-class druggist for Wyeth's Sage and Sulphur Hair Remedy the public can get a superior preparation of sage, with the admixture of sulphur, another valuable remedy for hair and scalp troubles. Daily use of this preparation will not only quickly restore the color of the hair, but will also stop the hair from falling out and make it grow.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special Agent, Koch Pharmacy.

FIND TREASURE IN THE OCEAN

Great Quantity of Gold Recovered Off Coast of Honduras.

PURPOSE OF MYSTERIOUS TRIP

Expedition From San Francisco on Steamer Eureka Gets Millions Cached by Chilean Cruiser More Than Twenty Years Ago.

San Diego, Cal., June 9.—A message received here from a party of treasure seekers aboard the steamer Eureka says their expedition to recover an immense cache of gold, hidden by the crew of a Chilean cruiser off the Honduran coast more than twenty years ago has been successful. The treasure has been variously estimated at from $15,000,000 to $65,000,000, according to reports circulated heretofore.

The steamer is now headed for this port. The Eureka is in command of Captain Burliss and was taken on a thirty day charter by a party of San Francisco people about two weeks ago. The expedition is said to have been financed by Harry Krelling, a well known club man of San Francisco.

Winter Wheat—Acreage, 31,367,000, or 106.6 per cent of 1910 acreage (29,427,000); June 1 condition, 80.4, compared with 81.6 the ten-year average; indicated yield per acre, 15.3 bushels, compared with 15.5, the five-year average.

All Wheat—Indicated yield per acre, 14.7 bushels, compared with 14.7, the five-year average.

Oats—Acreage, 35,250,000, or 99.9 per cent of 1910 acreage; 88.4, the ten-year average; indicated yield per acre 27.7 bushels, compared with 28.4, the five-year average.

WILL PROSECUTE MOB

Forced Innocent Man to Confess Robbery and Then Whipped Him.

Hartsville, Mo., June 9.—It developed that Armon Elumbaugh, who was forced by a mob on May 28 to confess to a robbery committed at Rayborn, Mo., on May 25, was guiltless of the crime. Elumbaugh was whipped and driven from the town and now officers are trying to locate him.

On Saturday, May 27, the home of John Hopkins of Rayborn was broken into and robbed. Elumbaugh was accused, but he made a vigorous denial. The next day a mob gathered and Elumbaugh was threatened with death unless he confessed.

He admitted the robbery and was punished by the mob.

Elumbaugh's relatives say they will prosecute the members of the mob.

Baldwin Boilermakers on Strike.

Philadelphia, June 9.—Between 1,000 and 2,000 boilermakers employed by the Baldwin Locomotive works in this city went on a strike without the sanction, it is said, of the national officers of the boilermakers' union. No wage question is involved, the trouble being due to the laying off of 1,200 men some weeks ago. The union men assert that the men were forced out because they had joined labor organizations.

TAKE ACTION ON RECIPROCITY BILL

Senate Committee to Send It in Without Recommendation.

ROOT AMENDMENT IS ADOPTED

Committee Is Evenly Divided on Motion for Favorable Report—Senator Johnson of Maine Is Absent—Committee's Action Surprises Senate.

Washington, June 9.—The Canadian reciprocity bill was acted upon by the senate finance committee and will be reported Tuesday without recommendation.

The Root amendment to the print paper and wood pulp provision was adopted by the committee by a vote of 8 to 6.

An attempt to authorize an unfavorable report resulted in a tie vote and another tie marked the effort to report without recommendation before that result was accomplished.

The votes on the measure were a surprise to members of the senate. It had been believed that the finance committee would shift responsibility to the senate, leaving the real fight to be waged on the floor. At the last moment the opposition in the committee seemed to solidify.

The committee met in executive session and immediately proceeded to vote on amendments. The first modification offered was by Senator Nelson of Minnesota, which would have reduced, instead of removing duties on live stock and farm products. This was defeated without a roll call and the same fate was meted out to the house free list bill. The latter provision was formally offered by Senator Bailey and received only his vote and those of Simmons and Kern. An amendment by Simmons to include flour and meats in the free list also was voted down.

Root Amendment Adopted.

The Root amendment requiring the admission of American wood pulp and paper into Canada free of duty then was voted into the bill without discussion, the affirmative votes being cast by Senators Lodge, Smoot, Gallinger, Clark (Wyo.), Heyburn, LaFollette, Bailey and Simmons, and the negative by Penrose, Cullom, McCumber (Reps.) and Stone, Kern and Williams (Dems.).

On a motion for a favorable report the vote stood 6 to 8 and on the succeeding motion for an unfavorable report there was a tie of 7 to 7. The same result at first followed a motion for a report without recommendation, but Senators Gallinger, Bailey and Simmons, who at first cast their ballots in the negative, ultimately changed and thus allowed the bill to go to the senate without recommendation whatever by a vote of 10 to 4. Senator Johnson of Maine was absent.

Senator Williams of Mississippi then moved that Chairman Penrose be authorized to report the bill at once to the senate, but the motion received only the votes of Williams, Stone and Kern. Several minority reports are expected and as it was desired that they should be presented with the majority report, it was decided to postpone until Tuesday the presentation of any of them.

The Root amendment provides that the paper and wood pulp sections of the bill shall not be in force until the president "shall have satisfactory evidence and shall make proclamation that such wood pulp paper and board, being the products of the United States, are admitted into all of the provinces of Canada free of duty."

The president already has begun a campaign looking to the defeat of the amendment on the floor.

NAGEL TALKS TO GRADUATES

Secretary of Commerce Discusses Rule of Reason at St. Louis.

St. Louis, June 9.—Addressing 150 graduates at the fiftieth commencement of Washington university, Charles Nagel, secretary of commerce and labor, forecasted an altered form of government in the United States as a result of the "rule of reason" trust decision and declared in favor of reciprocity, arguing that one of its greatest advantages will be the closer relation with Canada.

The secretary's speech ran rapidly from one issue of the day to another. The trust prosecutions he described as a "clash between rational regulation and irrational monopoly."

The honorary degree of doctor of laws was conferred on Secretary Nagel.

GRAND JURY CALLS MARSHALL

Panel Investigating Extradition of McNamara Subpoenas Governor.

Indianapolis, June 9.—Subpoenas were prepared to summon Governor Marshall, his secretary, Mark Thistlethwaite; Secretary of State Lew Ellingham and Frank W. Samuels, manager of a telegraph company, before the grand jury tomorrow to testify in the alleged kidnaping of J. J. McNamara, secretary of the International Association of Bridge and Structural Iron Workers, from this city and taking him to Los Angeles, where he is held for complicity in alleged dynamiting outrages.

WHY SO WEAK?

Kidney Troubles May Be Sapping Your Life Away—Maryville People Have Learned This Fact.

When a healthy man or woman begins to run down without apparent cause, becomes weak, languid, depressed, suffers backache, headache, dizzy spells and urinary disorders, kidney weakness may be the cause of it all. Keep the kidneys well and they will keep you well. Doan's Kidney Pills cure sick kidneys and keep them well. Can Maryville readers demand further proof than the following statement:

Mrs. W. M. Newman, Chestnut street, Savannah, Mo., says: "Doan's Kidney Pills have been of more benefit to me than any other kidney remedy I have ever used, and in view of this fact, I willingly recommend them. I was caused much suffering by pains in my shoulders, and mornings on arising I felt tired and languid. I was also bothered by the kidney secretions. Hearing Doan's Kidney Pills highly spoken of, I procured a box, and soon after beginning their use I was relieved. Another member of my family has also taken this remedy with satisfactory results."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

City Council to Meet.

The city council will meet this evening to cast up the vote on the special election held Tuesday. No other business will come up before the council.

Lin Hitchcock, W. H. Hitchcock, David Hitchcock and L. M. Torry of Skidmore were city visitors Friday, making the trip over in an automobile.

Local Firm Will Continue Valuable Agency.

Charles Love Drug Co. of this city has just closed a deal whereby it will continue to be agent for Zemo—the well known remedy for Eczema, Dandruff, and all diseases of the skin and scalp.

The extraordinary leap that this clean liquid external treatment for skin affections has made into public favor in the last few years proves its wonderful curative properties and makes it indeed a valuable addition to the fine stock of remedial agents carried by the Charles Love Drug Co.

They have a limited supply of samples, one of which will be given free to any skin sufferer who wishes to test the merit of the medicine. A booklet, "How to Preserve the Skin," will also be given to those interested.
